Reflection

The industry talk 2 at Credence, a subsidiary of Telekom Malaysia Bhd (TM), provided valuable insights into the aspirations and plans of the team members for their development as system developers over the next four years. Each member expressed their commitment to continuous learning and growth, with a focus on improving their programming abilities, expanding knowledge in software development, gaining real-world experience through internships, and mastering new programming languages. They also emphasized the importance of staying updated with the latest technologies, honing problem-solving skills, and participating in practical projects, ongoing education, and relevant workshops. The team members are dedicated to becoming proficient system developers, aligning with Credence's emphasis on fostering a collaborative team with open communication, continuous learning, and growth.
